Winter Session Wrap-up

March 14, 2023

Repertoire Week

Repertoire Week is next week! The Repertoire classes will be held on Tuesday, March 21st and Wednesday, March 22nd. Lesson students will perform two songs from their current repertoire in a variety of styles and time periods for their families. Students, thank you in advance for sharing your beautiful music!

NYSSMA

Repertoire

Some of our students are learning pieces from the latest NYSSMA manual. Students put in the extra practice time to prepare these special NYSSMA pieces. Students perform these pieces at our annual Spring Recital and some will also perform them at the 2023 NYSSMA Spring Festival! Good luck to all!!!

During The Spring Session...students will

continue to practice current repertoire, learn new pieces and work to understand the underlying music theory which provides the foundation for each piece. As always, please email me with any questions that may arise during practice.

Spring Session

Reservations

It is time for students who registered for the Winter Session only to reserve their place in the Spring Session. Please email [Miss Peggy](mailto:MissPeggy) at your earliest convenience. Students who have registered for the full

school year and those with monthly tuition are all set!

New students may email the registration information requested [online](#) to receive a brochure which includes everything they need to get started.

Spring Recital

Students will let Miss Peggy know **at the first Spring Session lesson** about their participation in the recital.

We will choose two songs from current repertoire to prepare for performance.

You'll prepare for the recital by including your recital pieces in your daily practice at home and by attending the rehearsals.

This way you will be ready to perform for family and friends at the Spring Recital! Each performer will gain valuable experience performing at the Spring Recital which adds to their skill and confidence.

Discounts Available

Current students receive a **\$10** tuition discount for every new student they refer who registers! This program is unlimited!

Zoom's Original Sound Feature

Zoom has a feature for users with at least a basic account who are playing instruments during meetings. The **Original sound for musicians** feature allows for the preservation of audio received from your microphone.

To enable Original Sound in your settings, follow these steps:

1. Sign into a Zoom meeting.
2. Click on up arrow next to mute icon.
3. Click on **Audio Settings**.
4. Under the **Audio Profile** section, select **Original sound for musicians**. Once enabled in Settings, the Original sound feature has to be [toggled "On"](#) every time you start a new meeting in upper left corner of meeting screen.

Additional audio options are also available: **High-fidelity music mode**: This disables echo cancellation & post-processing, while raising audio codec quality. **Echo cancellation**: Prevents the creation of echoes between mic and speakers. **Stereo audio**: Encodes [mic audio in stereo](#).

[For Your Future Reference](#)
